WEB-PROGRAMMING

Building Websites and Blogs

(for rising 3rd graders and above)

Our lives in 2st Century have irrevocably moved online. From social media to digital newspapers, online games, 'apps', streaming media and cloud based content. This online presence has made it almost a requirement for everyone to know how to generate online content responsibly.

Knowing how to build a website or a blog is an essential first step in online content development.

Taught by instructor with over 15 years of solid experience in Java, HTML, PHP, CSS and SQL, this class will teach students how to be safe online and build a responsible, secure online presence. They will build web pages, learn about information flow, user experience and much more!

(No student's personal information will be shared online at any time.)

Eight 1 hour classes on Saturdays at 11:30 AM at Mathnasium location in Avon

Dates: June 4, 11, 18, 25; July 9, 16, 23 30
